Any Carseat Can Morph Into Comfy Stroller

The Infant Cruizer makes leaving the house with baby a breeze by transforming any infant carseat into a comfortable stroller. Attaching easily to any infant carseat, it safely holds it in place with a secure click and lock system and features sturdy, all-terrain tires, one-handed maneuvering and telescoping handle height.

Simple to attach and detach, functioning just like the infant seat's base. It's an investment at \$199, but for families with several kids, it could be worth it. Purchase online at www.gogobabyz.com, via phone at (888) 686-2552 or at retail stores throughout the country.
