### News, tips and trends for parents

Published September 10, 2006

#### Tots on the go

*Editor's Note: With so many children's products, books and toys coming across our desk, The Weekly Pick highlights those we like, dislike or find amusing.*

For anyone who has schlepped through airports with small children, luggage and bulky, hard-to-carry car seats, the gogo Kidz Travelmate is a godsend.

A nifty, portable attachment for car seats, the Travelmate allows you to wheel the seat (and the child), making it infinitely easier to navigate during those long security lines and rushed walks through terminals. It has 5 inch wheels for a smooth ride, and a wide wheel base for stability.

What we like best: When not in use, it can be easily detached, weighs only 5 pounds and stores flat in the overhead compartment.

And we guarantee you'll encounter plenty of jealous, overloaded parents who will want to know where you got it. The gogo Kidz Travelmate, \$89, is available at [www.gogobabyz.com](http://www.gogobabyz.com).
